Report of Independent Auditors

To the Board of Directors of Washington Township Health Care District

Opinions

We have audited the accompanying financial statements of the business-type activities, the aggregate discretely presented component units, and fiduciary activities of the Washington Township Health Care District (the "District") as of and for the years ended June 30, 2024 and 2023, including the related notes, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the business-type activities, the aggregate discretely presented component units, and fiduciary activities of the District as of June 30, 2024 and 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS, will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages from 3 through 11 and the required supplementary information on page 53 through 59 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Pricewaterhouse Coopers JLP

San Francisco, California December 16, 2024

Overview of the Financial Statements

The annual financial report consists of Management's Discussion and Analysis, financial statements and notes to those statements and required supplementary information. These statements are organized to present the Washington Township Health Care District (the District), the Washington Hospital Healthcare Foundation (the Foundation), the Warm Springs Health Center (JV-Warm Springs), and the WHHS & UCSF Health Cancer Services Joint Venture, LLC (JV-Oncology) as discrete financial entities, operating as a financial whole. Readers should also review the accompanying notes to the financial statements as they provide additional information that is essential to a full understanding of the District's, Foundation's, JV-Warm Springs', and JV-Oncology's financial statements.

The District is a political subdivision of the State of California organized under the Local Health Care District Law, as set forth in the Health and Safety Code of the State of California, and is considered a Local Government Agency. The District's mission is to provide broad healthcare services to its residents. The District's boundaries encompass an area of approximately 124 square miles in southern Alameda County. Included within the District's boundaries are the cities of Fremont, Newark, Union City, southern portions of Hayward and an unincorporated area of the County known as Sunol. The District operates Washington Hospital (the Hospital), a 415-bed licensed acute care hospital located in Fremont, California.

The District is the sole corporate member of Washington Township Hospital Development Corporation (DEVCO). DEVCO was formed in 1984 to train medical personnel, develop medical treatment programs, perform medical research and development, and render medical services to the general public. The DEVCO Board is appointed by the District's Board. DEVCO operates a radiation oncology center and also operates an outpatient rehabilitation center and an urgent care clinic. In July 2010, DEVCO purchased a controlling interest in the Washington Outpatient Surgery Center, LLC (WOSC) and has blended its financial statements since this date.

Peninsula Surgery Center LLC (PSC) is a joint venture between DEVCO, WOSC and private physicians that was formed in 2022. DEVCO holds the majority interest in the operating entity, PSC, and the holding company, Peninsula Surgical Partnership LLC (PSP). PSC and PSP are considered component units of DEVCO and are blended in DEVCO's financial statements.

DEVCO is the sole corporate member of Washington Township Medical Foundation (WTMF). WTMF was formed in 2010 to operate a multi-specialty medical clinic under the applicable provisions of the California Health and Safety Code. WTMF is a blended component unit of DEVCO and DEVCO is a blended component unit in the District's financial statements.

The accompanying financial statements include the accounts and transactions of the Hospital, DEVCO and WTMF. All significant inter-company accounts and transactions have been eliminated in the financial statements.

The Foundation was established to raise funds for the operation, maintenance, and modernization of the facilities of the District, its related corporations, and sponsored programs which benefit the District. JV-Warm Springs was established to provide a combination of primary care, multi-specialty care, urgent care and other outpatient services to the residents of the District. JV-Oncology was established to provide radiation oncology services at the District and is the beginning phase of a larger ambulatory cancer services affiliation between the District and University of California, San Francisco (UCSF) which are committed to providing the preeminent regional cancer program in the south east Bay Area.

The statements of net position and the statements of revenues, expenses, and changes in net position, provide an indication of the District's, the Foundation's, JV-Warm Springs', and JV-Oncology's financial health. The statements of net position include all of the District's, Foundation's, JV-Warm Springs' and JV-Oncology's assets, deferred outflows of resources, liabilities and deferred inflows of resources, using

Washington Township Health Care District Management's Discussion and Analysis Years Ended June 30, 2024 and 2023 (Unaudited)

the accrual basis of accounting, as well as an indication about which portions of net position can be utilized for general purposes and which are restricted as a result of bond covenants, donor restrictions or other purposes. The statements of revenues, expenses, and changes in net position report all of the revenues and expenses and increases and decreases in net position during the time period indicated that resulted from the District's, the Foundation's, JV-Warm Springs', and JV-Oncology's operating and nonoperating transactions during the year. For the District, the statements of cash flows report the cash provided by and used in operating activities, as well as other cash sources and uses such as investment income, repayment of bonds, and capital additions and improvements. Two of the primary statements, the statements of fiduciary net position and the statement of changes in fiduciary net position, present the financial position and operating activities for the District's pension and other post-employment medical benefits. The notes to the financial statements provide additional information that is essential to a full understanding of the financial statements.

In fiscal year 2024, the District adopted GASB Statement No. 100, *Accounting Changes and Error Corrections-An Amendment of GASB Statement No.* 62, effective for the District's fiscal year beginning July 1, 2023. This statement provides guidance to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The adoption did not have any impact on the District's consolidated financial statements.

Financial Highlights

- The District generated an operating loss of \$29.5 million in fiscal year 2024, an operating loss of \$39.3 million in fiscal year 2023, and an operating gain of \$5.1 million in fiscal year 2022. The operating losses during the past two years were driven primarily by increasing consolidated operating expenses, particularly in salaries and employee benefits, which is exacerbated by the higher cost of living in the region in which the District operates. In addition, compounding inflationary pressures also resulted to higher cost of supplies and services.
- When non-operating income and special items are included, the District's activities resulted in a \$14.8 million, \$41.0 million, and \$4.6 million decrease in net position for fiscal years 2024, 2023, and 2022, respectively.
- Despite the operating losses in fiscal years 2024 and 2023, the District continues to experience volume improvements. Net patient revenue improved by 6.2 percent (\$37.1 million) from fiscal year 2023 and by 3.7 percent (\$21.2 million) from fiscal year 2022, and is expected to further increase as a result of key strategic and operational improvement initiatives that the District has in its pipeline.

Analysis of the District's Net Position

- Total assets and deferred outflows of resources have fluctuated since 2022, at \$1.2 billion in fiscal year 2024, compared to \$1.1 billion in fiscal years 2023 and 2022. Cash and investments increased in 2024 due to positive financial market returns and the proceeds from the issuance of Series 2023 bonds. Decrease in net capital assets resulted from the increase in accumulated depreciation exceeding the net capital additions.
- Total liabilities increased by \$161.2 million to \$971.2 million at June 30, 2024 primarily due to the issuance of Series 2023 bonds, compared to an increase of \$68.7 million at June 20, 2023 due to the increase in net pension liability as a result of the decline in financial market returns.
- Total net position of \$249.6 million at June 30, 2024 was \$14.8 million less than the net position of \$264.4 million at June 30, 2023, and total net position at June 30, 2023 was \$41.0 million less than the net position of \$305.4 million at June 30, 2022, which is mainly due to losses on operations.

Washington Township Health Care District Management's Discussion and Analysis Years Ended June 30, 2024 and 2023 (Unaudited)

Table 1 provides a summary of the District's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position as of June 30, 2024, 2023 and 2022:

(in thousands)	2024	2023	2022
Assets			
Current assets	\$ 195,937	\$ 163,377	\$ 154,903
Long-term investment and restricted funds	371,885	216,763	236,919
Capital assets, net	599,235	612,011	637,054
Prepaid pension asset	-	-	36,970
Other assets	 43,367	 44,268	 40,888
Total assets	1,210,424	1,036,419	1,106,734
Deferred outflows of resources	 38,355	 72,273	 22,441
Total assets and deferred outflows of resources	\$ 1,248,779	\$ 1,108,692	\$ 1,129,175
Liabilities and Net Position			
Current liabilities	\$ 150,919	\$ 131,705	\$ 131,053
Net pension liability	52,379	69,065	-
Net postemployment medical benefits (OPEB)	41,143	42,548	37,676
Long-term lease and SBITA liabilities	18,523	15,886	8,476
Long-term debt	699,969	543,256	556,767
Other long-term liabilities	 8,288	 7,601	 7,414
Total liabilities	 971,221	 810,061	 741,386
Deferred inflows of resources	 27,946	 34,250	 82,412
Net position			
Net investment in capital assets	47,060	63,618	92,959
Restricted – expendable	34,531	29,722	28,817
Restricted for minority interest	1,527	1,641	3,345
Unrestricted	 166,494	 169,400	 180,256
Total net position	 249,612	 264,381	 305,377
Total liabilities, net position and deferred inflows of resources	\$ 1,248,779	\$ 1,108,692	\$ 1,129,175

Table 2 provides a summary of total available cash and investments as of June 30, 2024, 2023 and 2022:

(in thousands)	2024	2023	2022
Cash and cash equivalents and short-term investments	\$ 66,073	\$ 50,763	\$ 40,962
Board-designated for capital and debt	180,886	176,628	198,857
Workers' compensation fund	9,332	8,921	8,912
Unexpended capital bond funds, excluding amounts			
required for current liabilities	181,622	31,155	29,108
Restricted funds	 45	 59	42
Total available cash and investments	\$ 437,958	\$ 267,526	\$ 277,881

The District maintains sufficient cash, short-term investments and Board-designated balances to cover all short-term liabilities. All excess cash is transferred to Board-designated funds for future needs.

Net Capital Assets

Net capital assets decreased by \$12.8 million to \$599.2 million at June 30, 2024, compared to \$612.0 million at June 30, 2023, and \$637.1 million at June 30, 2022. This decrease resulted from the increase in accumulated depreciation exceeding the net capital additions. Net capital additions amounted to \$22.5 million and \$17.6 million in fiscal years 2024 and 2023, respectively. Increase in accumulated

depreciation amounted to \$47.4 million and \$54.6 million in fiscal years 2024 and 2023, respectively. The majority of net capital additions includes purchases of equipment, constructions in building, and land improvements.

Debt Administration

As part of the obligations under the bond indentures for the 2015A, 2017A, 2017B, 2019A, 2020A and 2023A Series Revenue Bonds, the District has agreed that the Hospital will maintain a long-term debt service coverage ratio of no less than 1.1 to 1.0 on a yearly basis. The Hospital's long-term debt service coverage ratio was 3.21 to 1.0, 2.56 to 1.0, and 4.44 to 1.0 for the years ended June 30, 2024, 2023, and 2022, respectively. In its report issued August 22, 2023, Moody's assigned their rating of these bonds at Baa3, with a stable outlook.

Analysis of the District's Results of Operations

Table 3 shows the revenues, expenses, and changes in net position for the District for the years ended June 30, 2024, 2023 and 2022:

(in thousands)	2024	2023	2022
Operating revenues			
Net patient service revenues	\$ 634,120	\$ 596,975	\$ 575,825

Beginning of year	 264,381	 305,377	 309,961
End of year	\$ 249,612	\$ 264,381	\$ 305,377

Net Patient Service Revenues

The District receives Federal funds through the Medicare program and State funds through the Medi-Cal program. The District also receives funds through the Alameda County Medi-Cal HMO program. These government payors account for approximately 71.8 percent, 70.9 percent, and 71.0 percent of the District's gross revenues in fiscal years 2024, 2023, and 2022, respectively. Commercial preferred provider organization (PPOs) and health maintenance organizations (HMOs) together comprise approximately 26.4 percent, 27.6 percent, and 27.4 percent of gross revenues in fiscal years 2024, 2023, and 2022, respectively, with the balance of gross revenues attributable to uninsured individuals.

Net patient service revenues increased \$37.1 million (6.2 percent) to \$634.1 million in fiscal year 2024, compared to \$597.0 million in fiscal year 2023, and \$575.8 million in fiscal year 2022.

Inpatient Business Activity

The District's gross inpatient revenue increased by \$4.8 million (0.3 percent) to \$1.383 billion in fiscal year 2024, compared to \$1.378 billion in fiscal year 2023, and \$1.375 billion in fiscal year 2022.

2024 Days 2023 Days % Change 2022 Days % Change 2024 v 2023 2023 v 2022 Specialty Medical/surgical 45,886 45,931 -0.1% 44,650 2.9% 6,346 Critical care 5,640 5.667 -0.5% -10.7% Special care nursery 1,265 1,328 -4.7% 1,061 25.2% Pediatrics 263 438 -40.0% 215 103.7% Obstetrics 4,080 4,371 -6.7% 3,970 <u>10.1%</u> Subtotal adult and pediatric patient days 57,134 57,735 -1.0% 56,242 2.7% Newborn 2,877 3,035 -5.2% 2,880 5.4% 2.8% Total patient days 60,011 60,770 -1.2% 59,122

Table 4 presents the patient days for each year and the percentage changes:

Admissions decreased by 144 (1.4 percent) to 10,459 in fiscal year 2024, compared to 10,603 in fiscal year 2023, and 9,739 in fiscal year 2022. The average length of stay decreased by 0.05 to 5.38 days in fiscal year 2024, compared to 5.43 in fiscal year 2023, and 5.65 in fiscal year 2022. The overall case mix index for the District, which is a measure of patient acuity, slightly increased to 1.593 in fiscal year 2024, compared to 1.542 in fiscal year 2023, and 1.594 in fiscal year 2022. The decrease in the length of stay was attributable to a fewer number of COVID-19 cases seen during the past two fiscal years, which generally have a higher acuity and longer length of stay. In addition, there are on-going operational improvement initiatives that focuses on reducing excess days by moving the patients appropriately within the system and getting them the right level of care.

Inpatient surgeries increased to 2,450 in fiscal year 2024, compared to 2,437 in fiscal year 2023 and 2,470 in fiscal year 2022. The most significant factor in this decrease was the migration of joint replacement procedures from the inpatient to the outpatient setting, with associated reductions to the reimbursement for these procedures. Depending on various risk factors, these procedures may still be done as inpatient procedures; however, this is now the exception, rather than the rule. Joint procedures classified as inpatient increased to 21.0 percent in fiscal year 2024.

Outpatient Business Activity

The District's gross outpatient revenue increased by \$108.7 million (9.8 percent) to \$1.22 billion in fiscal year 2024, compared to \$1.11 billion in fiscal year 2023, and \$1.07 billion in fiscal year 2022. This is mainly due to the overall improvement in outpatient volumes, as well as the implementation of various operational initiatives to improve the quality of care delivered to patients and get them the right level of care. In addition, the movement of joint procedures from the inpatient to outpatient setting contributed to the increase.

Emergency room visits increased by 2,026 (3.5 percent) to 60,723 in fiscal year 2024, compared to 58,697 in fiscal year 2023.

Non-Emergency Outpatient visits decreased to 103,069 in fiscal year 2024, compared to 105,848 in fiscal year 2023, and 91,570 in fiscal year 2022.

Outpatient surgeries performed at the Hospital increased by 76 (2.4 percent) to 3,215 in fiscal year 2024, compared to 3,139 in fiscal year 2023, and 2,963 in fiscal year 2022.

Visits at WTMF increased 2,983 (1.4 percent) to 213,565 in fiscal year 2024, compared to 210,582 in fiscal year 2023, and 235,275 in fiscal year 2022 (inclusive of COVID visits). WTMF's telehealth visit platform provided over 19,000 telehealth visits in fiscal year 2024, over 25,000 telehealth visits in fiscal year 2023, and over 30,200 telehealth visits in fiscal year 2022. The decreasing trend in telehealth visits are due to less Covid-19 restrictions for in-person care and more competition from other virtual care providers.

Deductions from Revenue

Contractual allowance adjustments (expressed as a percentage of gross revenues) were 75.5 percent, 75.8 percent, and 74.72 percent for fiscal years 2024, 2023, and 2022, respectively. The increasing trend in contractual allowance adjustment percentages resulted primarily from increasing government payors and lower average payment rates from commercial payors due to changes in the mix of payors represented in these categories.

Charity Care

The District provides care without charge to all patients who meet certain criteria under its Charity Care Policy. Charity allowances are based upon the customary charges for the services provided under this program. The District recorded \$2.7 million, \$4.0 million, and \$4.6 million in foregone charges related to charity care for patient services during fiscal years 2024, 2023, and 2022, respectively. Patients who are eligible for charity care are generally those without insurance who also meet income eligibility criteria. Private pay revenues decreased from \$40.6 million in fiscal year 2022 to \$36.4 million in fiscal year 2023 and increased to \$48.2 million in fiscal year 2024.

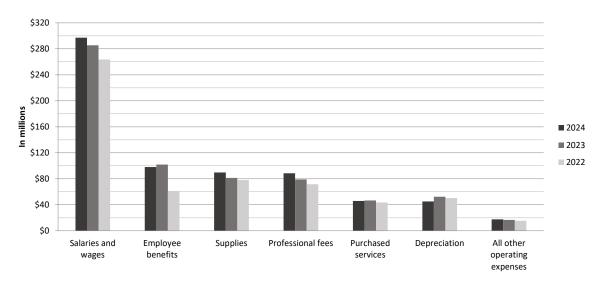

In addition to the charity care described above, the estimated cost in excess of reimbursement for medically indigent patients under Medi-Cal and Medi-Cal managed care programs was estimated at \$75.0 million in 2024, compared to \$78.0 million in 2023, and \$66.0 million in 2022. Uncompensated services with an estimated total cost of more than \$168.0 million in fiscal year 2024, \$159.0 million in fiscal year 2023, and \$139.0 million in fiscal year 2022 were provided to Medicare and Medicare managed care patients.

Provision for Bad Debt

The provision for bad debt (expressed as a percentage of gross revenues) was 1.66 percent in fiscal year 2024, 1.45 percent in fiscal year 2023, and 1.68 percent in fiscal year 2022.

Operating Expenses

Total operating expenses were \$682.0 million, \$663.4 million, and \$584.2 million for fiscal years 2024, 2023, and 2022, respectively, the components of which are summarized in the graph below:

Total operating expenses increased by \$18.6 million (2.8 percent) from fiscal year 2023 to fiscal year 2024, with the largest dollar increase attributable to salaries and wages, and the next largest dollar increase attributable to professional fees.

Total operating expenses increased by \$79.2 million (13.6 percent) from fiscal year 2022 to fiscal year 2023, with the largest dollar increase attributable to employee benefits, and the next largest dollar increase attributable to salaries and wages.

Salaries and Benefits

- Salaries and wages increased by \$11.7 million (4.1 percent) in fiscal year 2024, and by \$21.9 million (8.3 percent) in fiscal year 2023. As of June 30, 2024, approximately 65.1 percent of the employees of the District are members of collective bargaining groups. These employees receive periodic pay increases through the various Memoranda of Understanding (MOU) that have been approved by the District's Board of Directors. The increase in salaries and wages were attributable to increases in wage rates under the MOUs and increases provided to non-represented employees. The District considers the increases under the MOUs to be in line with the current local wage environment. In addition, the nationwide shortage of health care workers and inflationary pressures contributed to higher cost of labor and increased overtime in fiscal year 2024.
- District-wide full-time equivalent employees (FTEs) were 1,971, 1,934, and 1,851 FTEs at June 30, 2024, 2023, and 2022, respectively.
- Employee benefits decreased by \$3.6 million (3.5 percent) in fiscal year 2024 and increased by \$40.5 million (66.1 percent) in fiscal year 2023. The largest component of this was the decrease in pension

expense amounting to \$5.4 million offset by rising health care benefit costs. Pension expense decreased due to better investment and financial market performance on the related asset portfolio during the fiscal year.

Other Operating Expenses

- The increase in professional services and supplies expenses in fiscal years 2024 and 2023 are related to inflationary pressures that have generally driven up the costs of supplies and services.
- Depreciation expense decreased by \$7.3 million (13.8 percent) and increased by \$2.0 million (4.0 percent) in fiscal years 2024 and 2023, respectively.
- The change in other operating expenses were not significant.

Net Non-operating Revenues and Expenses

Net non-operating revenues and expenses increased by \$10.0 million and \$9.4 million in fiscal years 2024 and 2023, respectively. The most significant changes in non-operating activity include:

- Favorable market returns in fiscal year 2024 resulted to \$3.6 million unrealized gains on investments, compared to unrealized loss of \$1.3 million in fiscal year 2023.
- Federal grant revenue amounted to \$4.3 million, \$0.6 million, and \$1.4 million in fiscal years 2024, 2023, and 2022, respectively and will continue to decrease as several Federal COVID-19 Relief programs wind down.

Economic Factors Expected to Affect the District's 2024 Operations

The Board of Directors of the District approved the fiscal year 2025 operating budget at their June 2024 meeting. The operating budget was developed after a review of internal and external forces, key volume indicators and trends. It was based on the best information available during a time of significant uncertainty regarding deteriorating worldwide macro-economic conditions and as economic volatility persists. The budget focuses on revisiting and updating the implementation of growth strategies and cost savings meant to secure strong performance for the District for years to come. The budget incorporates the District's current Institutional Agenda as well as economic factors, such as estimated population growth and unemployment rates, lasting impact of inflation and volatile investment markets.

Downward pressures on reimbursement are expected to continue. In estimating net revenues for fiscal year 2025, the District has attempted to incorporate the continued effects of the changes in reimbursement from government, commercial and third party payors, based on the available information. Likewise, the future state of the Bay Area and the country's economy, which is also difficult to predict, could have a significant impact on the District's operations. Additional legislation at either the State or Federal level may affect the accuracy of many of the assumptions included in the budget estimate.

The fiscal year 2025 budget anticipates an increase in operating revenues combined with an increase in expenditures from the fiscal year 2024 level, primarily related to salaries and employee benefits, purchased and professional services, and supplies expenses. Salaries and wages are expected to increase as the number of full-time employees grow related to expanded services. Salary rates, employee benefits, purchased services and supply costs are all expected to maintain their increasing trajectory for the next few years due to increased volume and inflation. Utilities and software licenses are expected to grow as we continue to invest in technology for operational improvement. All other expense categories are expected to increase modestly in fiscal year 2025.

Washington Township Health Care District Management's Discussion and Analysis Years Ended June 30, 2024 and 2023 (Unaudited)

The District continues to explore and cultivate opportunities to improve its financial performance in both the short- and the long-term that should result in positive results of operations. This includes operational improvement initiatives to cut down costs of operations and key strategic investments in cancer care, level II adult trauma, urgent care, Warm Springs Health Center and Morris Hyman Critical Care Pavilion.

1. Organization and Summary of Significant Accounting Policies

Organization

District

Washington Township Health Care District (the District) is a political subdivision of the State of California organized under the Local Health Care District Law, as set forth in the Health and Safety Code of the State of California, and is considered a Local Government Agency (Local Agency). It is exempt from federal and state income taxes. The District's mission is to provide broad healthcare services to its residents. The District's boundaries encompass an area of approximately 124 square miles in southern Alameda County. The District operates Washington Hospital (the Hospital), a 415-bed licensed acute care hospital located in Fremont, California. Included within the District boundaries are the cities of Fremont, Newark and Union City, the southern portions of the city of Hayward and the unincorporated area known as Sunol.

The District is the sole corporate member of Washington Township Hospital Development Corporation (DEVCO). DEVCO was formed in 1984 to train medical personnel, develop medical treatment programs, perform medical research and development, and render medical services to the general public. The DEVCO Board is appointed by the District's Board. DEVCO operates a radiation oncology center and also operates an outpatient rehabilitation center and an urgent care clinic. In July 2010, DEVCO purchased a controlling interest in the Washington Outpatient Surgery Center, LLC (WOSC) and has blended its financial statements since this date.

Peninsula Surgery Center LLC (PSC) is a joint venture between DEVCO, WOSC and private physicians that was formed in 2022. DEVCO holds the majority interest in the operating entity, PSC, and the holding company, Peninsula Surgical Partnership LLC (PSP). PSC and PSP are blended component units of DEVCO.

DEVCO is the sole corporate member of its blended component unit, Washington Township Medical Foundation (WTMF). WTMF was formed in November 2010 to operate a multi-specialty medical clinic under the applicable provisions of the California Health and Safety Code. WTMF is a blended component unit of DEVCO.

The accompanying financial statements include the accounts and transactions of the Hospital, DEVCO, WOSC, PSC, PSP and WTMF. All significant inter-company accounts and transactions have been eliminated in the financial statements.

Foundation

Washington Hospital Healthcare Foundation (the Foundation), founded in 1982, is a California non-profit corporation. The Foundation was established to raise funds for the operation, maintenance, and modernization of the facilities of the District, its related corporations, and sponsored programs which benefit the District. Accordingly, the Foundation is considered a component unit of the District and is discretely presented in the District's financial statements. Complete financial statements for the Foundation can be obtained from the Foundation at 2000 Mowry Avenue, Fremont, CA 94538.

JV-Warm Springs and JV-Oncology

Warm Springs Health Center Partnership, LLC (JV-Warm Springs) was established in October 2021 and is a California limited liability corporation for federal and state tax purposes. JV-Warm Springs is a joint venture between the District and the University of California at San Francisco (UCSF). This joint venture was established to handle the management, design and construction of the building that these two entities own through a Tenants In Common Agreement, and to provide a

combination of primary care, multi-specialty care, urgent care and other outpatient services to the residents of the District.

WHHS & UCSF Health Cancer Services Joint Venture, LLC (JV-Oncology) was established in February 2023 to jointly provide radiation oncology services at the Hospital. The District and UCSF share the vision of combining their strengths to become the leading cancer services program in the region providing world-class care to oncology patients closer to their homes. The radiation oncology joint venture is the beginning phase of a larger ambulatory cancer services affiliation between the District and UCSF. Through the evolution of this joint venture in cancer care, the District and UCSF are committed to providing the preeminent regional cancer program in the south east Bay Area.

The District's holding of a majority equity interest in JV-Warm Springs and JV-Oncology does not meet the definition of an investment and the holding of the majority equity interest results in the District being financially accountable for the organizations. JV-Warm Springs and JV-Oncology do not meet the criteria for blending, and therefore are discretely presented component units in the District's financial statements.

Accounting Standards

District

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the economic resources measurement focus and the accrual basis of accounting. The District follows accounting principles issued by the Government Accounting Standards Board (GASB).

Foundation

As a non-profit organization, the Foundation reports under the Financial Accounting Standards Board (FASB) standards, including generally accepted accounting principles for not-for-profit organizations. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. For purposes of the District's financial statements, the Foundation's financial statements have been conformed to GASB presentation.

JV-Warm Springs and JV-Oncology

As the District's officials appoint a controlling majority of the members of the JV-Warm Springs and JV-Oncology's governing body, these two organizations are considered governmental. As such, JV-Warm Springs' and JV-Oncology's financial statements are reported under GASB requirements.

Fiduciary Component Units

The District administers a pension plan and an OPEB plan through trust arrangements. The District is obligated to make contributions to the plans and as such the plans meet the criteria for being considered fiduciary component units of the District.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The District's most significant estimates relate to patient accounts receivable allowances, amounts due to third-party payors, self-insurance liabilities and employee benefit costs. Estimates related to employee benefit costs include actuarial estimates of pension and OPEB obligations.

Proprietary Fund Accounting

The District utilizes the proprietary fund method of accounting whereby revenues and expenses are recognized on the accrual basis and financial statements are prepared using the economic resources measurement focus.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid debt instruments with an original maturity of three months or less. Cash equivalents held in short-term investments and long-term investments and restricted funds are treated as investments and are not included in cash and cash equivalents on the Statement of Cash Flows.

Due to the District's status as a Local Agency, amounts in the District's deposit accounts are considered to be public funds, which, by State statute, are required to be collateralized, with pledged securities, by the depository bank. The value of the pledged securities, in addition to the deposit insurance provided by the Federal Deposit Insurance Corporation, equals or exceeds the District's carrying value. Collateral is held by the depository bank's trust department in the name of the District.

Long-Term Investments and Restricted Funds

Long-term investments and restricted funds are invested in corporate debt securities, United States Treasury bonds and government agency debt issues. These investments are measured at fair value, which is determined based upon quoted market prices. These investments are exposed to various risks, such as interest rate, market and credit risks. Investments set aside for future capital improvements, or for funding insurance are considered to be Board-designated funds. These and other investments, whose use has been limited by financial arrangements, are classified as long- or short-term investment funds. Investments whose use by the District has been limited by Foundation donors to a specific time period or purpose are classified as restricted funds.

Capital Assets

Capital assets are recorded at cost. District assets with an original cost of \$500 or more are considered capital assets. Expenditures that substantially increase the useful lives of existing assets are capitalized. Routine maintenance and repairs are expensed as incurred.

Depreciation is provided over the useful life of each class of depreciable assets and is computed using the straight-line method.

Depreciable lives by property classification are as follows:

Land improvements	2–25 years
Buildings	10–40 years
Right-to-use lease and subscription-based IT arrangement assets	5–17 years
Fixed and moveable equipment	3–20 years

Deferred Inflows and Outflows of Resources

In addition to assets, liabilities and net position, the statements of net position includes separate sections for deferred outflows of resources and deferred inflows of resources. A deferred outflow represents a consumption or use of net position, applicable to a future period that will not be recognized as an outflow (expense) until that future period. Similarly, a deferred inflow represents an acquisition of net position, applicable to a future period that will not be recognized as an inflow (revenue) until that future period. The District has deferred outflows of resources related to goodwill, and both deferred inflows and deferred outflows of resources related to pension and other

postemployment medical benefits (OPEB) both of which are described further under Note 9, Employee Benefit Plans. The District also records deferred inflows related to leases.

Net Position

Net position is composed of the following categories:

Net Investment in Capital Assets

Capital assets, net of accumulated depreciation reduced by outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets.

Restricted - Expendable

Net position, whose use is subject to externally-imposed restrictions that can be fulfilled by actions of the District, pursuant to those restrictions, or that expire by the passage of time.

Restricted for Minority Interest - Nonexpendable

The District is involved in several joint ventures with outside entities in which it maintains majority ownership interest. The minority interest in these joint ventures includes:

(in thousands)	2024	2023
Washington Outpatient Surgery Center	\$ 3,604	\$ 4,422
Peninsula Surgical Partnership and Peninsula Surgery Center	\$ (2,077)	\$ (2,782)
Restricted for minority interest – nonexpendable	\$ 1,527	\$ 1,641

Unrestricted

Net position that is neither restricted nor included in net investment in capital assets. Unrestricted net position may be designated for specific purposes by management or the Board of Directors.

When an expense is incurred where both restricted and unrestricted net positions are available for use, the restricted net position is applied first.

Risk Management

The District is exposed to various risks of loss from torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; employee health, dental, and accident claims; and medical malpractice. The District utilizes both commercial insurance and self-insurance for claims arising from such matters. The District is self-insured with excess insurance above specified retention amounts for workers' compensation claims, health, vision and dental claims. The District has commercial insurance coverage for professional and general liability, directors' and officers' liability, and property damage claims.

Self-Insurance Plans

The District is self-insured for workers' compensation benefits for employees, up to a specified retention amount. An actuarial estimate of future claims payments, up to the retention amount, are accrued as a long-term liability. This estimate is based on the expected, undiscounted payments. Assets have been set aside for future payments of workers' compensation benefits, related expense, and the cost of administering the plan. These assets are classified as long-term investment funds in the accompanying financial statements.

The District provides eligible employees with health, vision and dental benefits through self-insured programs administered by Health Comp, OptumRx, Vision Service Plan and Delta Dental, respectively. The accrued liabilities for claims arising from these programs are estimated based upon annual actuarial reviews and are recorded at the expected, undiscounted amounts.

The District is a member of and participates in a professional and general liability and also directors' and officers' liability coverage group insurance program through BETA Healthcare Group (BETA). BETA is a joint powers authority whose members are primarily district hospitals and county facilities in California. Amounts paid to BETA by each member represent actuarially determined assessments of claims payable, and estimated incurred, but not reported, claims that are adjusted periodically based on the claims experience for each insured member. Claims in excess of specified insured limits are the responsibility of individual program participants.

The District's BETA professional and general liability insured program is on a "claims-made" basis, with a deductible and \$40.0 million limits. The District converted coverage for these liabilities from occurrence-based to claims-made on July 1, 2004. The District records actuarially-determined liabilities related to this coverage for 1) deductible amounts for currently open claims, 2) tail liability (based on claims associated with occurrences subsequent to July 1, 2004), and 3) unreported claims from occurrences prior to July 1, 2004 (subject to the deductible limit). The accrued liabilities are recorded at the expected, undiscounted amounts.

Concentration of Credit Risk

District

Financial instruments that potentially subject the District to concentration of credit risk consist principally of cash equivalents and patient accounts receivable.

The District invests its cash and cash equivalents in highly rated financial instruments including insured deposits and the Local Agency Investment Fund (LAIF). All of the District's investments, including assets held by trustees, are collateralized and/or are held by the District, or its agent, in the District's name. Other than U.S. Treasury obligations, LAIF funds, and money market mutual funds, there is no significant concentration in one investment or group of similar investments.

The District's concentration of credit risk relating to patient accounts receivable is limited by the diversity and number of the District's patients and payors. Patient accounts receivable consists of amounts due from governmental programs, commercial insurance companies, private pay patients and other group insurance programs. Medicare (23.1 percent), Medicare HMO (23.3 percent) and Medi-Cal HMO (16.3 percent) are the only payors representing more than ten percent of the District's net patient accounts receivable as of June 30, 2024. The District maintains an allowance for doubtful accounts based on the expected collectability of patient accounts receivable.

Statements of Revenues, Expenses, and Changes in Net Position

For purposes of display, transactions deemed by management to be ongoing, major, or central to the provision of health care services are reported as operating revenues and expenses. Peripheral or incidental transactions, which include federal grant revenues, property tax revenues, interest expense, investment income, changes in unrealized gains and losses, rental income and bond issuance costs are reported as non-operating revenues and expenses.

Net Patient Service Revenues

Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Reimbursement from third-party payors

under various methodologies is based on the level of care provided. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Retroactive adjustments, related to prior years, including adjustments to prior year estimates, increased net patient service revenues by approximately \$15.0 million in fiscal year 2024 and approximately \$9.0 million in fiscal year 2023.

Laws and regulations governing the Medicare and Medi-Cal programs are complex and are subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change.

Charity Care

The District provides care without charge to all patients who meet certain criteria under its Charity Care Policy. Because the District does not pursue collection of amounts determined to qualify as charity care, they are not included in net patient service revenues. The District subsidizes the cost of treating patients who are on governmental assistance, where reimbursement is below cost. The District recorded \$2.7 million and \$4.0 million in foregone charges related to charity care for patient services during fiscal years 2024 and 2023, respectively.

Other Revenues

Other revenues include revenues from cafeteria, laundry, dietary and certain DEVCO operations. Other revenues also include funding under the State of California's Public Hospital Redesign and Incentives in Medi-Cal (PRIME) program and the Quality Incentive Pool (QIP) program. Amounts recorded for the QIP program were \$3.8 million and \$9.5 million in fiscal year 2024 and fiscal year 2023, respectively.

Interest Income and Expense

Interest expense on debt issued for construction projects and income earned on the funds held pending use are recorded as income or expense in the period they are earned or incurred.

Impairment of Long-Lived Assets

The District is required to evaluate material events or changes in circumstances to determine whether an impairment loss should be recorded and that any insurance recoveries be netted with the impairment loss. Based on management's evaluation, there were no material impairment losses in fiscal years 2024 and 2023.

Income Taxes

District

The District operates under the purview of the Internal Revenue Code, Section 115, and corresponding California Revenue and Taxation Code provisions. As such, it is not subject to state or federal taxes on income. However, income from the unrelated business activities of the District may be subject to income taxes.

DEVCO, WTMF and Foundation

DEVCO, WTMF and the Foundation are California non-profit corporations; exempt from federal and state income tax as a 501(c) (3) organizations.

PSP, PSC, WOSC, JV-Warm Springs and JV-Oncology

These entities are all California limited liability corporations and are subject to state tax but are treated as pass-through entities for federal income tax purposes.

Property Tax Revenue

The District receives property taxes that are assessed by Alameda County for the service of the general obligation bond principal and interest payments. The District records these revenues as non-operating revenues.

Contributions used for Capital Items

Donations received that are restricted as to use, and have been used, for the purchase of capital items are reported as other changes to net position.

New Accounting Pronouncements Pending Adoption

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*, effective for financial statements beginning after December 15, 2023 (fiscal year 2025 for the District), with earlier adoption encouraged. The objective of this statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. Management is currently evaluating the effect of this standard on the District's financial statements.

In January 2024, the GASB issued Statement No. 102, *Certain Risk Disclosures*, effective for financial statements beginning after June 15, 2024 (fiscal year 2025 for the District), with earlier adoption encouraged. This statement establishes accounting and financial reporting requirements which require an assessment on whether a concentration or constraint makes the District or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact, and whether an event or events associated with a concentration or constraint that could cause substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within twelve months of the date the financial statements are issued. Management is currently evaluating the effect of this standard on the District's financial statements.

In May 2024, the GASB issued Statement No. 103, *Financial Reporting Model Improvements*, effective for financial statements beginning after June 15, 2025 (fiscal year 2026 for the District). This statement provides guidance to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. Management is currently evaluating the effect of this standard on the District's financial statements.

In October 2024, the GASB issued Statement No. 104, *Disclosure of Certain Capital Assets*, effective for financial statements beginning after June 15, 2025 (fiscal year 2026 for the District). The standard requires that certain types of capital assets, such as lease assets by major class of underlying asset, and right-to-use assets arising from subscription-based information technology arrangements, be disclosed separately in capital asset not disclosures. The standard also requires that capital assets be reported as capital assets held for sale if the government has decided to pursue a sale of the asset and it is probable that the sale will be finalized within one year of the financial statement date; it also requires additional note disclosures about capital assets held for sale.

Adopted

In fiscal year 2024, the District adopted GASB Statement No. 100, *Accounting Changes and Error Corrections-An Amendment of GASB Statement No.* 62, effective for the District's fiscal year beginning July 1, 2023. This statement provides guidance to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The adoption did not have any impact on the District's consolidated financial statements.

2. Patient Revenues

Patient revenues consist of the following:

(in thousands)	2024			2023		
Gross patient charges						
Routine inpatient services	\$	460,247	\$	420,962		
Ancillary inpatient services		922,580		957,051		
Outpatient services		1,216,765		1,108,024		
		2,599,592		2,486,037		
Less: Charity care		(2,724)		(4,003)		
Gross patient service revenues		2,596,868		2,482,034		
Deductions from gross patient service revenues						
Contractual allowances for statutory and negotiated rates		1,919,731		1,848,999		
Provision for doubtful accounts		43,017		36,060		
		1,962,748		1,885,059		
Net patient service revenues	\$	634,120	\$	596,975		

The District has agreements with third-party payors that provide for payments to the District at amounts that differ from established rates. Inpatient acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates-per-discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. The District also receives Medicare Disproportionate Share (DSH) reimbursements for services provided to a disproportionate percentage of low-income patients. The Medicare program pays hospitals for outpatient services under the prospective payment system known as Ambulatory Payment Classifications (APCs). Under APCs, the District is paid a prospectively determined rate based on the diagnosis and procedures provided to patients. Outpatient physical therapy, speech therapy, occupational therapy, and laboratory are paid based upon prospectively determined fee schedules. The Hospital is reimbursed for cost reimbursable items at a tentative rate, with final settlements determined after submission of annual cost reports by the Hospital and audits thereof by the Medicare fiscal intermediary. The Hospital's cost reports have been finalized for all fiscal years through June 30, 2020. Inpatient services provided to Medi-Cal program beneficiaries are reimbursed under an All Patient Refined Diagnosis Related Group (APR-DRG) payment methodology. Outpatient services provided to Medi-Cal beneficiaries are reimbursed according to a state fee schedule.

The District has also entered into payment agreements with certain commercial insurance carriers and preferred provider organizations. The methods for payment under these agreements include prospectively determined rates-per-discharge, discounts from established charges, and prospectively determined per diem rates. The District receives reimbursement from various payors under the State of California Division of Workers' Compensation program, based upon a pre-determined fee schedule.

Billings relating to services rendered are recorded as net patient service revenue in the period in which the service is performed, net of contractual and other allowances, which represent differences between gross charges and the estimated receipts under such programs. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Receivables for patient care are also reduced for allowances for uncollectible accounts.

The process for estimating the ultimate collection of receivables involves significant assumptions and judgments. Account balances are written off against the allowance when management determines it is probable the receivable will not be recovered. The use of historical collection and payor reimbursement experience is an integral part of the estimation of reserves for uncollectible accounts. Revisions in estimated reserves for uncollectible accounts are recorded as an adjustment to the provision for bad debts.

There is ongoing uncertainty about reimbursements from government programs. The Centers for Medicare and Medicaid Services have proposed reductions in rates, which could result in decreases in Medicare reimbursements. The State budget contains proposed health care budget cuts that may affect reimbursements for Medi-Cal services. The ultimate outcome of these proposals and other market changes cannot presently be determined.

The District participates in several State and Federal supplemental payment programs that allow it and other governmental agencies to draw down unspent Medi-Cal funds, up to the Federal upper payment limit. The primary mechanism used for drawing down these funds is intergovernmental transfers, whereby Districts transfer funds to the State, who then transmits the funds to the Federal government to draw down the Federal matching funds. In fiscal years 2024 and 2023, the District recognized \$26.5 million and \$20.6 million, respectively, in supplemental funding obtained through these programs, including the following:

(in thousands)	2024	2023
Hospital Quality Assurance Fee	\$ 4,555	\$ 5,126
Rate Range	15,040	4,000
Public Hospital Redesign and Incentives in Medi-Cal Program	3,771	9,497
AB915 Public Hospital Outpatient Services Supplemental		
Reimbursement Program	1,110	1,145
AB113 Medi-Cal Fee-for-Service Payment Supplement	 2,034	 842
Total gross patient revenues	\$ 26,510	\$ 20,610

In fiscal year 2020, the State announced that they were recalculating amounts paid to all District Hospitals under the Public Hospital Outpatient Services Supplemental Reimbursement Program

from 2003 to 2017 due to an error in the State's original calculations. It is anticipated that these recalculations may result in recoupment of amounts previously recorded, however the State has not yet finalized its analysis. The District had recorded a reserve of \$2.5 million as of June 30, 2024 and 2023, based on the District's preliminary calculations of the potential recoupment amount.

The composition of gross patient revenues by major payor type is as follows:

(in thousands)	2024	2023
Medicare and Medicare HMO	\$ 1,373,753	\$ 1,269,819
Medi-Cal and Medi-Cal HMO	492,224	493,071
Commercial PPO, HMO and others	685,391	686,727
Private pay	 48,225	36,420
Total gross patient revenues	\$ 2,599,592	\$ 2,486,037

3. Related-Party Transactions

One of the District board members is an officer of the District's primary banking institution. As of June 30, 2024 and June 30, 2023, respectively, the District's balances on deposit with the primary banking institution were as follows: cash and cash equivalents \$31.5 million and \$19.6 million, Board-designated for capital and workers compensation \$150.7 million and \$144.0 million. Banking and investment fees paid were \$0.4 million for fiscal year 2024 and \$0.5 million for fiscal year 2023.

4. Fair Value

The fair value of certain assets has been estimated using available market information and appropriate valuation methodologies. A fair market value hierarchy for valuation inputs has been established to prioritize them into levels based on the extent to which inputs used in measuring fair value are observable in the market. The level assigned to a particular financial instrument is determined by the lowest level input that is significant to the fair value measurement in its entirety.

These levels are as follows:

- Level 1 Values are based on quoted prices (unadjusted) available in active markets for identical assets or liabilities as of the measurement date. Level 1 investments include equity securities and other publicly traded securities. The District has no Level 1 assets or liabilities.
- Level 2 Values are based on quoted prices in non-active markets, dealer quotations, or alternative pricing sources for similar assets or liabilities, for which all significant inputs are observable, either directly or indirectly. Level 2 investments included fixed- or variable-income securities, commingled funds, certain derivatives and other assets that are valued using market information.
- Level 3 Values are based on inputs that are generally unobservable for the asset or liability and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value for Level 3 investments are based upon the best information available and may require significant management

judgment. Level 3 investments include private equity investments, real estate and split interest agreements. The District has no Level 3 assets or liabilities.

- Net Asset Value (NAV) Investments whose fair value is measured at NAV are excluded from the fair value hierarchy. Investments in non-governmental entities that do not have a readily determinable fair value may be valued at NAV. Types of investments which are measured at NAV include hedge funds, private equity investments and commingled funds.
- Not Leveled Cash and cash equivalents include cash on hand, deposits in banks, certificates of deposit and money market funds. Due to their short-term nature, the carrying amounts of these assets are considered to approximate their fair value. Certain deposits exceed FDIC limits.

The fair value of the District's investment assets, measured on a recurring basis at June 30, 2024, is reflected in the following table:

(in thousands)	Ot	gnificant Other oservable Inputs Level 2)	N	let Asset Value (NAV)	 Cash quivalents ot Leveled)		alance at ne 30, 2024
District							
U.S. Treasuries	\$	73,382	\$	-	\$ -	\$	73,382
U.S. Agencies		17,518		-	-		17,518
Corporate and municipal bonds		56,296		-	-		56,296
Local Agency Investment Fund (LAIF)		-		-	39,560	1	39,560
Money market and mutual funds		-		-	219,660		219,660
Total Investments - District	\$	147,196	\$	-	\$ 259,220	\$	406,416

¹ Amount includes funds held on behalf of the Foundation.

The fair value of the District's investment assets, measured on a recurring basis at June 30, 2023, is reflected in the following table:

(in thousands)	Ot	gnificant Other oservable Inputs Level 2)	٢	Vet Asset Value (NAV)	Cash quivalents ot Leveled)		alance at le 30, 2023
District							
U.S. Treasuries	\$	71,213	\$	-	\$ -	\$	71,213
U.S. Agencies		18,418		-	-		18,418
Corporate and municipal bonds		51,894		-	-		51,894
Local Agency Investment Fund (LAIF)		-		-	42,979	1	42,979
Money market and mutual funds		-		-	 63,404		63,404
Total Investments - District	\$	141,525	\$	-	\$ 106,383	\$	247,908

¹ Amount includes funds held on behalf of the Foundation.

Significant Level 2 instruments listed in the fair value hierarchy tables above use the following valuation techniques and inputs:

Fixed income funds consist of government securities and corporate bonds. Where identical quoted market prices are not readily available, fair value is determined using quoted market prices and/or other market data for comparable instruments and transactions in establishing prices, as well as discounted cash flow models and other pricing modes. These inputs to fair value are included in industry-standard valuation techniques such as the income or market approach.

Investments valued at NAV are State of California Local Agency Investment Fund that include funds designated for operations and for Board-designated purposes which are highly liquid and for which there are no unfunded commitments. Excluding invested amounts related to bond proceeds, amounts may be withdrawn with 1 to 2 days' notice, depending on the amount. For bond proceeds invested in the commingled funds, withdrawals are subject to a delay of up to 30 days, depending on the timing of the request.

Fair value estimates are made at a specific point in time and are based on relevant market information about the financial instrument therefore changes in assumptions could significantly affect these estimates.

Since the fair value has been estimated as of June 30, 2024 and as of June 30, 2023, the amounts that will actually be realized or paid at settlement or maturity of the instruments could be different.

5. Long-Term Investment and Restricted Funds

District

As of June 30, 2024 and 2023, investment and restricted funds, at fair value, have been set aside as follows:

(in thousands)	2024	2023		
Long-term investment and restricted funds				
Board-designated for capital and debt	\$ 180,886	\$	178,095	
Workers' compensation fund	9,332		8,921	
Funds held by trustee under bond indenture	216,153		60,833	
Restricted funds	 45		59	
Total funds	406,416		247,908	
Short-term investments – required for current liabilities	 (34,531)		(31,145)	
Total long-term investment and restricted funds	\$ 371,885	\$	216,763	

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy, for assets that are Board-designated for capital, limits investments made by each investment manager to have an average maturity of not more than five years.

The District's investment policy permits the following investments:

Washington Township Health Care District Notes to Financial Statements

June 30, 2024 and 2023

	Maximum Average Maturity	Maximum Percentage	Maximum Investment
Authorized investment type			
U.S. Treasury obligations	10 years	100%	none

Total investments	\$	247,908	\$	119,051	\$	116,995	\$	7,788	\$	4,074

Amounts invested in the State of California Local Agency Investment Fund include funds designated for operations and for Board-designated purposes.

Credit Risk

The District's investment policies are governed by State statutes that require the District to invest in highly rated and secure cash equivalents, and government and corporate debt securities. The District's policy requires that investments in corporate bonds be rated "A-" or its equivalent or better by a nationally recognized rating service under the "prudent man rule" (Civil Code Sect. 2261 et

seq.) as long as the investment is deemed prudent and the type of investment is allowable under current legislation of the State of California (Government Code Section 53600 et seq.). Should the rating fall below the required rating, the District's policies provide for a period under which corrective action is to be taken. As of June 30, 2024 and 2023, there were no investments below the required rating.

The District's investments at June 30, 2024 and 2023 are rated as follows:

(in thousands)	Fair Value at June 30

Total capital assets being depreciated, net	567,093	(23,180)	(3,237)	540,676
Total capital assets, net	\$ 612,011	\$ (2,308)	\$ (10,468)	\$ 599,235

The District's right of use asset for both fiscal year 2024 and 2023 includes building and equipment leases and subscription based IT arrangement assets (SBITAs). The equipment leases are not material.

At June 30, 2024, the District was in the process of completing several construction and renovation projects. Commitments related to these projects totaled approximately \$6.3 million.

The increase in the District's accumulated depreciation includes both operating and non-operating depreciation as detailed below:

(in thousands)	2024	2023		
Change in accumulated depreciation				
Operating depreciation expense	\$ 45,144	\$	52,398	
Nonoperating depreciation expense	2,262		2,205	
Disposal/Adjustment of fixed assets	 (8,887)		(18,761)	
Total increase in accumulated depreciation	\$ 38,519	\$	35,842	

The District's capital assets activity for fiscal year 2023 consisted of the following:

(in thousands)	Beginning Balance June 30, 2022	Increase	Decrease	Ending Balance June 30, 2023
Capital assets, not being depreciated	\$ 27.616	¢	¢	¢ 07.040

7. Credit Facilities

The District entered into an Irrevocable Standby Letter of Credit (LOC) in connection with phase II of the facility master plan construction project that was completed in 2018. In fiscal year 2024, the amount of the letter of credit was \$1.5 million. No draws have been made under the LOC as of June 30, 2024.

WOSC had a short-term \$1.0 million revolving line of credit available as of June 30, 2024 and 2023. No draws have been made under this line of credit.

8. Long-Term Debt

The District directly finances the construction, renovation and acquisition of facilities and equipment, or such other purposes as authorized by the Board of Directors through the issuance of debt obligations. Long-term financing includes revenue and government bonds, financial obligations and other borrowings.

In November 2020, the residents of the District approved Measure XX, which authorized the issuance of \$425 million of general obligation bonds to fund certain capital building projects. In April 2022, the District issued \$20.0 million of the 2020 Election General Obligation Bonds (2022 Series A), and in September 2023 issued another \$125.0 million of the 2023 Election General Obligation Bonds (2023 Series B). The proceeds of the issuance from these bonds were used to finance a portion of the projects authorized by Measure XX. As of June 30, 2024, \$280 million of the November 2020 bond authorization remains unissued.

In September 2023, the District issued \$40.0 million of revenue bonds (2023 Series A) to finance the acquisition, construction, improvement, betterment and equipping of the District's facilities and the cost of issuing the Bonds.

The District is also required to meet certain covenants, the most restrictive of which is related to debt service coverage. The District has agreed that the Hospital will maintain a long-term debt service coverage ratio of no less than 1.1 to 1.0 on a yearly basis. If, for any fiscal year, the long-term debt service coverage ratio falls between 1.0 and 1.1 to 1.0, the District is required to employ an independent consultant to make recommendations which will result in the long-term debt service coverage increasing to 1.1 to 1.0. As long as the District complies with the recommendations and the long-term debt service coverage is no less than 1.0 to 1.0, no further actions are required of the District. In the event that the long-term debt service coverage ratio falls below 1.0 to 1.0, the Trustee, or a majority of the bondholders, shall be entitled to declare the bonds immediately due and payable.

The District was in compliance with these covenants as of June 30, 2024 and 2023, maintaining debt service coverage ratios of 3.21 to 1.0 and 2.56 to 1.0, respectively. The Hospital is the sole member of the obligated group for these bonds.

WOSC is party to several multi-year lease agreements for surgical equipment. Amounts related to these obligations are included in current maturities of long-term debt and long-term debt, as appropriate.

In November 2020, PSC entered into a business loan agreement (Loan) to finance construction expenditures related to a surgery center in Redwood City, California. The Loan was guaranteed by PSP and the District. The original amount of the promissory note was \$9.4 million at 4.25 percent with a maturity date of December 1, 2031.

A summary of the District's revenue bond, general obligation bond and loans payable activity for the year ended June 30, 2024 is as follows:

9. Employee Benefit Plans

Defined Benefit Retirement Plan

The District maintains a defined benefit retirement plan, the Washington Township Health Care District Retirement Plan (the Plan), that covers all employees who meet certain eligibility requirements. The Plan, as approved by the Board of Directors of the District, is a single employer plan funded solely by the District. Benefits under the Plan are calculated based on the participant's length of service, age at retirement, and average compensation as defined by the Plan. Employees are fully vested in the Plan after five years of service and are eligible to receive an unreduced benefit once they reach age 65. An employee who attains age 62 and has completed 20 years of service, or an employee who attains age 60 with 30 years of service is also eligible for an unreduced benefit. The Plan also provides disability and death benefits. The Plan does not issue a stand-alone financial report. Based on guidance under GASB Statement No. 68 the benefit discount rate is equal to the expected long-term (30 year) return on assets, which assumes that Plan assets will be invested in a diversified portfolio of stocks and bonds.

The District has flexibility in determining the amount to contribute to the Plan each year. In determining the amount of the annual contribution, the District considers the calculated actuarially determined contribution. The District has adopted a funding policy that is intended to result in the funding status of the Plan reaching 100 percent, as calculated under the provisions of GASB Statement No. 68. In addition to the District's contributions, under the terms of the California Public Employees' Pension Reform Act (PEPRA), which became effective in January 1, 2013, new employees are required to contribute to the normal cost of their pension benefits. The projected amounts of these employee contributions have been considered in determining the actuarially determined contribution amounts.

Participant data for the Plan, as of the measurement date (December 31 of the prior year) for the indicated fiscal years, is shown in the table below:

	2024	2023
Active and suspended	1,649	1,598
Vested terminated	753	742
Retirees and beneficiaries	973	926
Total participants	3,375	3,266

Components of pension cost for years ended June 30, were as follows:

(in thousands)		2023		
Pension cost				
Service cost	\$	11,089	\$	9,513
Employee contributions		(2,620)		(2,180)
Interest		31,624		30,239
Expected return on plan assets		(26,987)		(33,190)
Administrative expenses		196		273
Recognition of deferred amounts		1,318		15,393
Total pension cost	\$	14,620	\$	20,048

Components of deferred outflows and inflows of resources for the year ended June 30, 2024 were as follows:

(in thousands)	eferred utflows	_	eferred nflows)
Differences between expected and actual experience Change of assumptions Net differences between projected and actual earnings	\$ 2,944 1,184 23,688	\$	(335) (622) -
Contributions made subsequent to measurement date	 2,125		-
Total	\$ 29,941	\$	(957)

Components of deferred outflows and inflows of resources for the year ended June 30, 2023 were as follows:

(in thousands)	_	eferred utflows	_	eferred nflows)
Differences between expected and actual experience Change of assumptions Net differences between projected and actual earnings Contributions made subsequent to measurement date	\$	3,634 4,524 49,977 1,875	\$	(631) (1,215) - -
Total	\$	60,010	\$	(1,845)

Amounts reported as deferred outflows and inflows of resources – pension will be recognized in pension expense as indicated in the following table:

(in thous	ands)	eferred utflows	-	Deferred Inflows)	Total
2025		23,192		(16,967)	6,226
2026		22,194		(12,145)	10,049
2027		21,924		(5,707)	16,217
Thereaft	er	 75		(5,707)	 (5,632)
	Total deferred outflows and (inflows) of resources - pension	\$ 67,385	\$	(40,526)	\$ 26,859

The following table summarizes the changes in net pension liability for the years ended June 30, 2024 and 2023:

(in thousands)	2024	2023
Total pension liability		
Service cost	\$ 11,089	\$ 9,513
Interest	31,624	30,239
Change in assumptions	2	-
Difference between expected and actual experience	420	4,053
Benefit payments	 (24,325)	 (22,859)
Net change in total pension liability	18,809	20,946
Total pension liability (beginning of year)	 464,432	443,486
Total pension liability (end of year)	 483,241	464,432
Plan fiduciary net position		
Employer contributions	1,875	8,100
Employee contributions	2,620	2,180
Net investment income (loss)	55,522	(72,238)
Benefit payments	(24,325)	(22,858)
Administrative expense	 (196)	(273)
Net change in fiduciary net position	35,495	(85,089)
Fiduciary net position (beginning of year)	 395,367	480,456
Fiduciary net position (end of year)	 430,862	395,367
Net pension liability (end of year)	\$ 52,379	\$ 69,065
Fiduciary net position as percent of liability	89.2 %	85.1 %
Covered payroll	\$ 216,805	\$ 210,819
Net pension liability as		
percent of covered payroll	24.2 %	32.8 %

The following table summarizes the actuarial assumptions used to determine net pension liability and plan fiduciary net position as of June 30, 2024 and June 30, 2023 (unless otherwise indicated, the same assumption was used for the valuations for both years):

Valuation date	December 31
Actuarial cost method Amortization method Asset valuation method	Entry Age Normal, Level Percent of Pay Straight Line Fair Value
Economic assumptions (including 3% inflation) Projected salary increases Discount rate	3.00 % 7.00 %
Demographic assumptions Mortality table for healthy participants	December 31, 2023 - Pri-2012 tables and projected forward using MP-2021 projection scale on a generational basis December 31, 2022 - Pri-2012 tables and projected forward using MP-2021 projection scale on a generational basis
Mortality table for disabled participants	December 31, 2023 - Pri-2012 disabled tables and projected forward using MP-2021 projection scale on a generational basis December 31, 2022 - Pri-2012 disabled tables and projected forward using MP-2021 projection scale on a generational basis
Sensitivity of net pension liability at December 31, 2023 to changes in the discount rate, with no other changes - 1 percent decrease (6.0%) Current discount rate (7.0%) 1 percent increase (8.0%)	\$ 110,927,701 52,379,351 3,233,419
Sensitivity of net pension liability at December 31, 2022 to changes in the discount rate, with no other changes - 1 percent decrease (6.0%) Current discount rate (7.0%) 1 percent increase (8.0%)	\$ 125,657,000 69,065,000 21,578,000

The fair value of the District's pension investments measured as of December 31, 2023, and used for the purpose of the June 30, 2024 valuation, is reflected in the following table:

(in thousands)	Quoted Prices in Active Markets for Identical Assets (Level 1)		ar Equ	Cash nd Cash uivalents : Leveled)	_	alance at uation Date
Money market funds Fixed income funds	\$	- 118,526	\$	2,467	\$	2,467 118.526
Domestic equity funds		143,409		-		143,409
International equity funds		87,081		-		87,081
Balanced real asset funds		79,379		-		79,379
Total pension assets	\$	428,395	\$	2,467	\$	430,862

The fair value of the District's pension investments measured as of December 31, 2022, and used for the purpose of the June 30, 2023 valuation, is reflected in the following table:

(in thousands)	Quoted Prices in Active Markets for Identical Assets (Level 1)		ar Equ	Cash nd Cash uivalents : Leveled)	_	alance at Jation Date
Money market funds	\$	-	\$	2,291	\$	2,291
Fixed income funds		99,017		-		99,017
Domestic equity funds		132,889		-		132,889
International equity funds		84,864		-		84,864
Balanced real asset funds		76,306		-		76,306
Total pension assets	\$	393,076	\$	2,291	\$	395,367

For a description of the levels used for valuation, information about the valuation techniques and inputs used to measure the fair value of plan assets, see discussion regarding fair value measurements in Note 4.

The District also has a Deferred Compensation Plan available to employees. Generally, any employee is eligible to voluntarily enter into an agreement with the District to defer current wages at amounts limited by federal law. Effective January 1, 2010, under the terms of the Washington Township Health Care District Employer Matching Contributions Plan (the Matching Plan), the District makes contributions to this plan, matching participant contributions to the Deferred Compensation Plan to a maximum of 1.5 percent of gross earnings for employees with a minimum of 1,000 hours in a benefitted status. Under the Deferred Compensation Plan and the Matching Plan agreements, participants select and manage their own investments in mutual fund options approved by the District. All investment earnings, including market value appreciation and depreciation, are set aside for the benefit of the participants.

Matching contributions made by the District were as follows:

(in thousands)

Contribution Year	А	mount	Employee Deductions Being Matched
Fiscal Year 2025	\$	2,318	Calendar year 2023
Fiscal Year 2024	\$	2,388	Calendar year 2022

Defined Benefit Postemployment Medical Plan

Other postemployment benefits are provided by the District through a single employer defined benefit postemployment medical plan, the Washington Township Health Care District Postretirement Medical Plan (the OPEB Plan). The OPEB Plan provides benefits for salaried and non-salaried employees, as approved and/or amended by the Board of Directors of the District, and is administered by the District. Eligible individuals are those retiring directly from the District, at a minimum age of 55, with a minimum of fifteen years of service, who have been continuously in a benefited status for the five years prior to their retirement date.

Eligible retirees who are less than age 65, with at least fifteen years of service, are eligible for coverage under the Blue Shield Retiree Medical Plan, with the District providing premium subsidies of from 35 percent (with 15 years of service) to 100 percent (with 30 years of service). Eligible retirees with at least twenty years of service may elect coverage under the Blue Shield Retiree Medical Plan or may elect to receive a monthly reimbursement for medical expenses up to a stipulated amount under the Retiree Medical Reimbursement Plan. This reimbursement amount is fixed and is not subject to future increases under the current terms of the OPEB Plan. Participation in either the Blue Shield Retiree Medical Plan or the Retiree Medical Reimbursement Plan is only available until the retirees reach age 65.

Once eligible retirees reach age 65, the OPEB Plan allows for reimbursement to the retiree of the standard Medicare Part B insurance premium amounts, with automatic reimbursement increases when Medicare increases the standard premium amounts. Employees retiring at or after age 55 with 25 years of benefited service are also eligible for a prescription drug benefit which provides reimbursement up to a stipulated amount for 10 years beginning at the later of age 65 or retirement. The stipulated reimbursement amount is fixed and is not subject to future increases under the current terms of the OPEB Plan.

A separate financial report is not prepared for the OPEB Plan.

The District has flexibility in determining the amount to contribute to the OPEB Plan each year. In determining the amount of the annual contribution, the District intends to contribute, at a minimum, the actuarially determined contribution for each year. The District has adopted a funding policy that is intended to result in the funding status of the Plan reaching 100 percent, as calculated under the provisions of GASB Statement No. 75.

As of the December 31, 2023 and December 31, 2022 measurement dates, the numbers of current and former employees who were eligible, or potentially eligible, for the OPEB Plan were as follows:

	2024	2023
Active	1,550	1,507
Retirees	615	590
Total participants	2,165	2,097

Components of postemployment medical benefits cost for years ended June 30, were as follows:

(in thousands)	2024	2023
Postemployment medical benefits cost		
Service cost	\$ 2,220	\$ 1,939
Interest	4,692	4,372
Expected return on plan assets	(1,666)	(1,789)
Administrative expenses	52	57
Recognition of deferred amounts	 (3,975)	 (2,919)
Total postemployment medical benefits cost	\$ 1,324	\$ 1,660

Components of deferred outflows and inflows of resources for the year ended June 30, 2024 were as follows:

(in thousands)	_	eferred utflows	-	eferred nflows)
Differences between expected and actual experience Change of assumptions Net differences between projected and actual earnings Contributions made subsequent to measurement date	\$	1,135 4,266 1,270 1,056	\$	(2,057) (4,039) - -
Total	\$	7,727	\$	(6,095)

Components of deferred outflows and inflows of resources for the year ended June 30, 2023 were as follows:

(in thousands)	_	eferred utflows	_	eferred nflows)
Differences between expected and actual experience Change of assumptions Net differences between projected and actual earnings Contributions made subsequent to measurement date	\$	326 5,619 3,153 1,821	\$	(2,465) (6,552) - -
Total	\$	10,919	\$	(9,017)

Amounts reported as deferred outflows and inflows of resources – postemployment medical benefits (OPEB) will be recognized in OPEB expense as indicated in the following tables:

(in thousands)	Deferred Dutflows	_	Deferred Inflows)	Total
2025	\$ 2,542	\$	(2,440)	\$ 102
2026	2,534		(1,597)	937
2027	2,219		(1,322)	897
2028	520		(1,265)	(745)
2029	503		(776)	(273)
Thereafter	 427		(770)	 (342)
Total deferred inflows of resources - postemployment medical benefits (OPEB)	\$ 8,744	\$	(8,168)	\$ 576

The following table summarizes changes in the net postemployment medical benefit liability from July 1, 2022 to June 30, 2024 and related ratios:

(in thousands)	2024	2023
Total postemployment medical benefits liability		
Service cost	\$ 2,220	\$ 1,939
Interest	4,692	4,372
Difference between expected and actual experience	1,055	(2,301)
Change of assumptions	(2,823)	2,551
Benefit payments	(2,307)	 (2,230)
Net change in postemployment medical benefits liability	2,837	4,331
Total postemployment medical benefits liability (beginning of year)	65,966	 61,635
Total postemployment medical benefits liability (end of year)	 68,803	 65,966
Plan fiduciary net position		
Employer contributions	3,132	5,531
Net investment income (loss)	3,469	(3,784)
Benefit payments	(2,307)	(2,231)
Administrative expense	 (52)	 (57)
Net change in fiduciary net position	4,242	(541)
Fiduciary net position (beginning of year)	23,418	 23,959
Fiduciary net position (end of year)	27,660	 23,418
Net postemployment medical benefits liability (end of year)	\$ 41,143	\$ 42,548
Fiduciary net position as percent of liability	40.1 %	35.5 %
Covered employee payroll	\$ 216,805	\$ 210,819
Net postemployment medical benefits liability		
as percent of covered employee payroll ¹	19.0 %	20.2 %

¹Required disclosure; neither OPEB Plan contributions nor benefits are based on covered employee payroll.

The following table summarizes the actuarial assumptions used to determine net OPEB liability and plan fiduciary net position as of June 30, 2024 and June 30, 2023 (unless otherwise indicated, the same assumption was used for the valuations for both years):

Valuation date	December 31
Actuarial cost method Amortization method Asset valuation method	Entry Age Normal, Level Percent of Pay Straight Line Fair Value
Economic assumptions (including 3% inflation) Projected salary increases Discount rate	3.00 % 7.00 %
Demographic assumptions Mortality table for healthy participants	December 31, 2023 - Pri-2012 tables and projected forward using MP-2021 projection scale on a generational basis December 31, 2023 - Pri-2012 tables and projected forward using MP-2021 projection scale on a generational basis
Mortality table for disabled participants	December 31, 2022 - Pri-2012 tables and projected forward using MP-2021 projection scale on a generational basis December 31, 2022 - Pri-2012 tables and projected forward using MP-2021 projection scale on a generational basis
Other assumptions Healthcare cost trend rate	Getzen Model of Long-Run Medical Cost Trends
Sensitivity of postretirement employee medical benefits liability as of December 31, 2023 to changes in the discount rate, with no other changes - 1 percent decrease (6.00%) Current discount rate (7.00%) 1 percent increase (8.00%)	\$ 50,429,000 41,234,000 33,535,000
Sensitivity of postretirement employee medical benefits liability as of December 31, 2023 to changes in the health cost trend rate, with no other changes - 1 percent decrease Current healthcare cost trend rate 1 percent increase	\$ 32,698,000 41,234,000 51,719,000
Sensitivity of postretirement employee medical benefits liability as of December 31, 2022 to changes in the discount rate, with no other changes - 1 percent decrease (6.00%) Current discount rate (7.00%) 1 percent increase (8.00%)	\$ 51,705,000 42,548,000 34,920,000
Sensitivity of postretirement employee medical benefits liability as of December 31, 2022 to changes in the health cost trend rate, with no other changes - 1 percent decrease Current healthcare cost trend rate 1 percent increase	\$ 34,101,000 42,548,000 52,976,000

The fair value of the District's OPEB investments measured as of December 31, 2023, and used for the purpose of the June 30, 2024 valuation, is reflected in the following table:

(in thousands)	in N for A	ted Prices Active Markets Identical Assets .evel 1)	and Equiv	ash Cash valents eveled)	 llance at ation Date

Pension Plan and OPEB Plan Portfolios

Long term (30-year) expected rate of returns are forecasted on a forward-looking basis by each asset class. Then the total portfolio's return is forecasted by combining returns of the asset classes based on the respective Plan's asset allocation targets as well as the asset classes' diversification benefits. The forecasting method takes into consideration current market conditions along with potential future changes such as yield shifts or valuation changes, as well as long term equilibrium return and risk considerations. For example, equity asset class methodology includes two models that focus on variables including expected earnings growth, dividend income and expected inflation to triangulate on a reasonable expected return. Fixed income models rely heavily on the existing yield environment but long term equilibrium rates play a part in the long run expectations that incorporate current expectations of inflation and yield curve normalization. The forecasting

methodology combines insights of expected returns for the next immediate period and a long term equilibrium period, to maintain capital markets' long term integrity.

The expected rates of return are presented as geometric means. The details are summarized in the following table:

		Long Term
Total portfolio		7.00 %
Total portfolio asset allocation		Asset Class Expected Returns
U.S. Stocks	33 %	6.6 %
Non-U.S. Stocks	22	7.5
High Grade Bonds	12	5.0
Diversified Credit	10	6.9
Diversified Inflation Hedge	15	7.9
Private credit	8	8.5
Total	100 %	

10. Insurance Plans

The District's hospital professional and general liability insurance, and the directors and officers liability deductible and insured programs, are purchased from BETA Healthcare Group (BETA). BETA was formed in 1979 for the purpose of operating an insured program with excess insurance coverage for certain hospital districts of the Association of California Hospital Districts (ACHD). Effective October 1, 1989, BETA became a separate joint powers authority, establishing itself as a public agency and distinct from ACHD. BETA is managed by a board of 15 elected representatives (the BETA council). The BETA council and its six committees meet quarterly to vote on all matters affecting the program. A representative from the District occupies one seat on the BETA council.

The District is self-funded for its workers' compensation claims and has been issued a Certificate of Consent to Self-Insure by the State of California, Department of Industrial Relations. The District purchases excess workers' compensation insurance coverage.

Significant primary and excess insurance coverage types, limits and retention/deductible amounts are included below:

Coverage	Policy Limit	Self-insured Retention/ Deductible Per Occurrence		
General				
All risk property	\$ 1,000,000,000	\$ 100,000		
Hospital professional and general liability	40,000,000	50,000		
Directors and officers liability	10,000,000	25,000		
Employment practices liability insurance	10,000,000	100,000		
Excess workers' compensation (A and B)	Statutory	1,250,000		
	2,000,000	-		
Commercial crime	10,000,000	50,000		
Automobile insurance	10,000,000	500		
Cyber liability	5,000,000	500,000		
Fiduciary	5,000,000	25,000		
Pollution	2,000,000	50,000		

Settled claims have not exceeded the District's policy limits in any year.

The District has actuarial reviews performed annually on its self-insured claims programs, including professional and general liability, directors' and officers' coverage, workers' compensation, and employee health, vision and dental benefits. Estimated liabilities include amounts for incurred but not reported (IBNR) claims.

11. Compensated Absences

District employees earn paid leave at varying rates depending on length of service and job classification. Employees can accumulate up to 640 hours of paid leave. All accumulated unused leave in excess of the maximum accrual amount is paid at the employee's anniversary date. Upon separation, unused vested leave balances are paid in full. As of June 30, 2024 and 2023, the approximate liability for unpaid compensated absences was \$22.1 million and \$21.4 million, respectively.

12. Blended Component Unit Information

Condensed financial statement information related to certain of the District's blended component units for the year ended June 30, 2024 is as follows:

13. Commitments and Contingencies

Lease Commitments

The District has entered into leases for medical clinic facilities, administrative spaces, and equipment that extends through 2042. Some leases include one or more options to renew, with renewal terms that can extend the lease term from one to five years. Leases may also include options to terminate the leases.

Certain of the District's lease agreements include rental payments adjusted periodically primarily for inflation. The lease agreements do not contain any material lease incentive received, residual value guarantees, material restrictive covenants or material termination penalties. The District also subleases certain real estate to third parties.

The District measures the lease liability at the present value of payments expected to be made during the least term. Leases with a term of twelve months or less and with undiscounted payments of less than \$150,000 are recognized as operating expense on a straight-line basis over the lease term. If the interest rate cannot be determined, the District will use an incremental borrowing rate to discount the lease payments, which is an estimate of the interest rate that would be charged for borrowing the lease payment amounts during the lease term.

The District's future minimum payments on leases are as follows:

(in thousands)	P	lı	nterest	
2025	\$	4,023		1,078
2026		3,594		914
2027		3,143		760
2028		2,433		631
2029		1,791		534
Thereafter		10,485		2,274
Total lease commitments	\$	25,470	\$	6,190

The District is a lessor of buildings under agreements that extend through 2067. Some leases include one or more lessee options to renew, with renewal terms that can extend the lease term from one to 5 years. Certain of the District's lease agreements include rental payments that are adjusted periodically, primarily for inflation. The lease agreements do not contain any material lease incentives paid, residual value guarantees, material restrictive covenants or material termination penalties. The District measures the deferred inflow of resources at the present value of payments expected to be received including any advance lease payments or lease incentives during the lease term. During the years ended June 30, 2024 and 2023, the District recorded \$5.6 million and \$4.5 million, respectively, in lease revenues.

Subscription-based Information Technology Arrangements

The District has subscription-based information technology arrangements (SBITAs) under agreements that extend through 2027. Some SBITAs include one or more options to renew and may also include options to terminate the subscription. SBITAs do not contain any material incentive paid, material restrictive covenants or material termination penalties. The District measures the SBITA liability at the present value of payments expected to be made during the subscription term. SBITAs with a term of 12 months or less and with undiscounted payments of less than \$150,000 are recognized as operating expense on a straight-line basis over the subscription term. If the interest rate implicit in the SBITA cannot be readily determined, the District

uses an incremental borrowing rate to discount the SBITA payments, which is an estimate of the interest rate that would be charged for borrowing the SBITA payment amounts during the subscription term.

The District's future minimum payments on SBITAs are as follows:

(in thousands)	Pri	ncipal	Ir	Interest		
2025	\$	1,079	\$	75		
2026		656		36		
2027		193		12		
2028		104		6		
2029		67		2		
Thereafter		-		-		
Total SBITA commitments	\$	2,099	\$	131		

Litigation

The District is involved in various claims and litigation, as both plaintiff and defendant, arising in the ordinary course of business. In the opinion of management, after consultation with legal counsel, these matters will be resolved without material adverse effect on the District's financial position.

Regulatory Environment

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, and government health care program participation requirements, reimbursement for patient services, and Medicare and Medi-Cal fraud and abuse. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers. Violations of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. While no regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation, as well as regulatory actions unknown or not asserted at this time.

14. The CARES Act

The District received COVID-19 Grants of \$4.3 million and \$0.6 million in fiscal years 2024 and 2023, respectively from Federal Emergency Management Agency (FEMA) for two obligated projects. This was recognized as federal grant revenue on the statement of revenues, expenses, and changes in net position.

Required Supplementary Information

Defined Benefit Retirement Plan

The District's actuarially determined contribution and actual contributions, for this plan year and the nine plan years prior, are presented in the following table:

(in thousands)	De	ctuarially termined ntribution	Actual Contribution		tribution Excess ficiency)	-	Covered Payroll	Contributions as % of Covered Payroll
